

## A Sodas

We like bubbles  
so we decided to  
make our own soda  
the way we would  
cocktails.

All our PS Sodas  
are handmade  
with natural,  
local and native  
ingredients and  
no preservatives.

All sodas 5  
With house spirits 9  
Recommended cocktails 13

### Wattle Cola

Wattle seed and cola nut are added to cassia bark, nutmeg, star anise, coriander seed, lavender, citrus zests & vanilla bean.

We recommend mixing this with rum or try it in a Batanga! Combining Calle 23 tequila with smoked salt, lime and cola.

### Blackstrap Ginger

Australian ginger, blackstrap molasses, allspice, lemon juice and pink salt. A richer version of the classic.

Best combined with Bourbon or Rye whiskey, also makes a cracking Dark n' Stormy using Goslings rum, ginger and lime.

### Smoked Lemonade

Smoked for us by our friends at LP's Quality Meats in Chippendale, we then add fresh lemon citrus juice and zests, rosemary and pink Margaret River salt.

Smoked Lemonade is inspired by the southern grilled lemonade, try combining Dickel whisky with curacao it in a Lynchburg.

### Bush Tonic

Red Peruvian quinine extract made in collaboration with Archie Rose Distillery, lemon and lime zests, native lemongrass and lemon myrtle.

Vodka, gin, Cognac, all goes well with tonic for something different try a Finger Lime Collins: Tanqueray gin, lemon & Maraschino.
